Resolution: 1200 ppi – 1:10 scale

File format: PDF

Color: CMYK - Coated FOGRA39

flattened file (no layers),
no print marks,
no overprint attribute,
no bleeds,
do not change the size of the template,
convert fonts to curves,
suggested black color parameters for
backlighting: C78 M85 Y90 K100

Remove the red and blue lines before saving the files. Leaving the line on will result in it being printed as a design element! In order to properly display the advertisement, all important elements should be inside the protective area marked with **red line**. The background and graphics must fill the entire project area. The shape of the cutting die, including the seam and keder area, is marked **blue line**. The yellow lines indicate the technical area for sewing tunnels and structural elements – fill it with a solid color.

Download and work on the graphic design template found on the next page of this PDF. If there is more than one, prepare the designs in separate files.

Guideline Label Legend:

Product shape

Safe area (place here elements that should not be trimmed, e.g. logo or text).
Remember to remove all lines from the design.

The image shows a template for a triangular sign with a 'roof' shape. It features a yellow dashed outer border, a blue solid inner border, and a red solid innermost border. The bottom edge of the triangle is replaced by a curved line. The text is centered within the triangle.

Roof1

369 x 236 [mm]

Print Adtent Air premium 5x5 (roof)

The image shows a template for a triangular sign with a curved base. It features three concentric outlines: a dashed yellow outer border, a solid blue middle border, and a solid red inner border. The text is centered within the triangle.

Roof2

369 x 236 [mm]
